INIA - Founder and History

Rini holds a degree from Prisma Professional English School Surabaya, and is a native of Indonesia. She spent a year in Singapore for hospitality product services.

Rini noticed that most people ignore the quality of swimming pool water, even though this is very important for health. The high cost of swimming pool maintenance makes people only care about the visuals of the water.

CV Inia provides an alternative to change filtration and disinfection systems to be more environmentally friendly and natural and does not use harmful chemicals.

INIA - Founder and History

Rini memiliki gelar dari Prisma Professional English School Surabaya, dan merupakan penduduk asli Indonesia. Dia menghabiskan satu tahun di Singapura untuk layanan produk perhotelan.

Rini memperhatikan bahwa kebanyakan orang mengabaikan kualitas air kolam renang, padahal ini sangat penting untuk kesehatan. Mahalnya biaya perawatan kolam renang membuat orang hanya peduli dengan visual airnya saja.

CV Inia memberikan alternatif untuk mengubah sistem filtrasi dan desinfeksi menjadi lebih ramah lingkungan dan alami serta tidak menggunakan bahan kimia berbahaya.
